Appl. No. 10/719,738
Supplemental Amendment
Amendment filed January 16, 2008

REMARKS

Applicant thanks the Examiner for his courtesy in telephone interviews on January 15 and 16, 2008. The independent claims were discussed. Agreement was reached that the Examiner would make an Examiner's Amendment to the independent claims, and amend the specification to change "MHz" to "Hz" to correct an obvious error; and that Applicant will file the present amendment to correct FIG. 4.

One of ordinary skill in the art would have recognized the obvious error in the specification and in FIG. 4 referring to video image frame frequency of 60 MHz, because it is well known that in the U.S., a video image frame field frequency of 60 Hz is used. No new matter is added.

In view of the foregoing amendments and remarks, Applicant submits that this application is in condition for allowance. Early notification to that effect is respectfully requested.

The Commissioner for Patents is hereby authorized to charge any additional fees or credit any excess payment that may be associated with this communication to deposit account 04-1679.

Respectfully submitted,

Dated: 1-16-08
